

### PL SOCKS BASE

It is a phthalate free printing base used to achieve opaque covering and soft touching effect in textile printing.

#### Highlights

- ▶ It has opaque covering effect.
- ▶ It is phthalate free. However, it is not suitable to ecological standards due to containing PVC.
- ▶ Its appearance is drop effect.
- ▶ Instead of using silicone on the back side of socks you could use that product as an alternative option for anti skid applications.

#### Printing Tips

- ▶ It has been manufactured for opaque covering effect.
- ▶ It gives non-slip property to socks.

#### Compliance

- ▶ It is not suitable to ecological standards due to containing PVC.

#### Precautions

- ▶ It is applied to socks-base.
- ▶ After using, the screen should be cleaned with synthetic thinner or plastisol screen opener.
- ▶ It is packed in 10kg cans.
- ▶ It gives non-slip property to socks.
- ▶ The technical application and information that have been given above, are designed only as using instructions. Should not be considered as a warranty for any other use. If any further help or assistance is required, our technical department is ready for help.
- ▶ In case of emergency, Safety Data Sheet of this product should be ready for help at the working area.
- ▶ The warnings available on safety data sheets have been written for the purpose of providing comprehensive information on the products & in case of any nonconforming usage can not be held responsible for any direct and/or indirect loss or damage of the manufacturer/distributor.

#### Mesh

Counts: 24-34 mesh  
(High Emulsion)

#### Squeegee

Durometer: 60-80 Shore  
V type dr. blade

#### Cure Temperatures

320°F(160°C) for 1.5 minutes

#### Additives

Do not use any additives  
that are not advised

#### Shipping & Storage

41°F - 86°F (5°C - 30°C)

#### Clean Up

Synthetic Thinner or  
Plastisol Screen Opener

#### Health & Safety
